

Product Profile Dimensions

PS44 - "CJB" profiles for Protection of Control Joints

Composite Fire Stop/Control Joint Backer Profiles for use to protect Architectural design joints (optional control joint over gap) for up to 2 hr rated assemblies. Tested and certified to ASTM E-119 Standards (WFCi - Report #12033). Profile sections are fabricated from hot-dipped galvanized steel complying with ASTM A653 with a minimum G40 (25ga). Profiles comply with ASTM C645 and provide a metal profile which support intumescent materials located inside and spanning gap between opposing drywall edges at control joint locations.

Part #	Intumescent Width	Profile Width	Gauge
CJB-18	1.25"	3.25"	.018
